STATE OF THE MEDIA: AUDIO TODAY

**A FOCUS ON MEDIUM & SMALL
MARKET RADIO**
AUGUST 2015

RADIO HAS A LARGE IMPACT IN MEDIUM & SMALL MARKETS

REACHING QUALIFIED CONSUMERS, EVERYWHERE

Radio's national scale reaches listeners in every corner of America, across more than 250 local markets large, medium and small. While the bigger cities grab most of the headlines, a big and qualified audience uses radio every day in medium and small markets. This special edition of the Audio Today report series focuses on the radio audience in 215 Nielsen Diary markets. There, more than 86% of consumers (age 12 or older) tune in during the week spending more than 15 hours of their media time with radio, the original mass medium.

**65 MILLION CONSUMERS
LISTEN TO MEDIUM & SMALL
MARKET RADIO EACH WEEK**

In the pages that follow, you'll find an in-depth profile of the medium and small market radio audience by age, gender and ethnicity. Did you know that Millennials make up the largest generation of radio users in medium and small markets? Or that 75% of radio listeners in those markets are in the work force and can be found outside the home when they are ready to buy? The power of radio in medium and small markets may surprise you.

MEDIUM & SMALL MARKET RADIO REACHES **36 MILLION** QUALIFIED CONSUMERS WEEKLY

That's the power of radio - in every market: always on, always local...and always reaching valuable consumers.

Source: Nielsen National Regional Database, Fall 2014, M-SU MID-MID.

All non-PPM markets (215). Listeners 12+. Weekly Cume Persons (65,462,400), Weekly Cume Rating (86.6%), Weekly Time Spent Listening (15:30).

Working data based on Adults 18-64.

MEDIUM & SMALL MARKET RADIO REACHES NEARLY 90% OF KEY BUYING DEMOS

WEEKLY CUME RATING IN MEDIUM & SMALL MARKETS LISTENERS 12+ (M-SU 6AM-MID)

HOW TO READ:

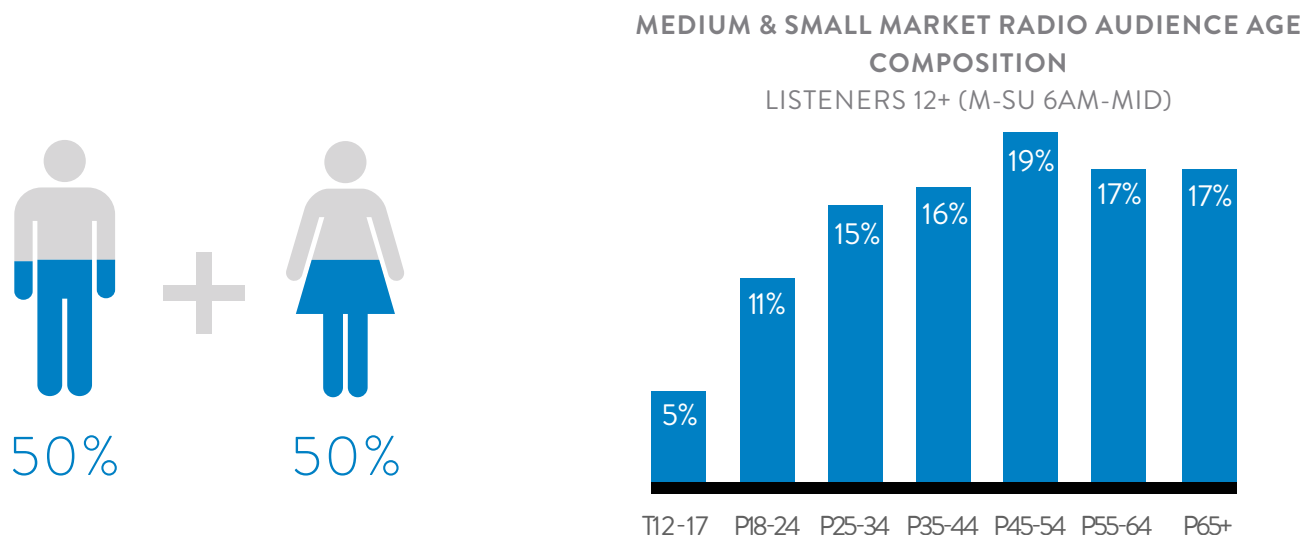

These figures represent “Weekly Cume Ratings.” For example, more than 90% of Women 35-44 in these markets tuned to radio at least once during an average week (between the hours of 6AM and Midnight, Monday-Sunday). The dotted line represents the average of all consumers in medium and small markets (12+) who listen to radio at least once during the week (86.4%).

Source: Nielsen National Regional Database, Fall 2014, M-SU 6AM-MID.
All non-PPM markets (215).

WHO LISTENS IN MEDIUM & SMALL MARKETS?

Medium and small market radio listeners are evenly split when it comes to gender. From an age perspective, more than 60% are between the ages of 18 and 54, where most advertising is targeted.

Qualified consumers make up the majority of the medium and small market radio audience; working listeners account for three-quarters of all radio users, tuning in away from home and close to the point of purchase.

SOURCING & METHODOLOGIES

GLOSSARY

WEEKLY CUME PERSONS: The total weekly number of different persons who tune to radio for at least five minutes during the given daypart.

WEEKLY CUME RATING: The Cume Persons audience expressed as a percentage of all persons estimated to be in the specified demographic group listening to a particular radio station or format.

TSL: Time Spent Listening. The amount of time (expressed in hours and minutes) the average listener spends with a particular station or format during the selected daypart. It can be defined on both a Daily and Weekly basis depending on the market.

AQH PERSONS: Average Quarter-Hour persons. The basic element of measurement for the ratings, based on the average number of listeners who tuned in for at least five minutes during a given 15-minute period. Also referred to as Persons Using Radio (PUR) in Nielsen Diary markets or Persons Using Measured Media (PUMM) for Nielsen PPM markets.

AQH RATING: The Average Quarter-Hour audience expressed as a percentage of the total population for the specified demographic group.

AQH SHARE: The Average Quarter-Hour audience expressed as a percentage of the total radio-listening population for the specified demographic group.

AQH COMPOSITION: The composition of the audience based on the Average Quarter-Hour persons estimate.

DIFFERENTIAL SURVEY TREATMENT (DST): A special procedure used to help maximize participation in the survey or panel by persons in a demographic group with a history of under-representation in survey research

SOURCING

Nielsen National Regional Database, Fall 2014, M-SU 6AM-MID. All non-PPM markets (215).

METHODOLOGIES

Format definitions are supplied to Nielsen by U.S. government-licensed radio stations, their internet streams and HD Radio services, regardless of their status as Nielsen clients.

Only stations licensed in the United States are included in Audio Today.

Nielsen's Diary service surveys respondents in 215 radio metros in the United States as of the Fall 2014 survey. Those markets were used to compile the data for this report.

Data used in this report is inclusive of multicultural audiences. Hispanic consumer audiences are comprised of both English and Spanish speaking representative populations.

ABOUT NIELSEN

Nielsen N.V. (NYSE: NLSN) is a global performance management company that provides a comprehensive understanding of what consumers Watch and Buy. Nielsen's Watch segment provides media and advertising clients with Total Audience measurement services across all devices where content — video, audio and text — is consumed. The Buy segment offers consumer packaged goods manufacturers and retailers the industry's only global view of retail performance measurement. By integrating information from its Watch and Buy segments and other data sources, Nielsen provides its clients with both world-class measurement as well as analytics that help improve performance. Nielsen, an S&P 500 company, has operations in over 100 countries that cover more than 90 percent of the world's population.
